

The powerful & easy-to-use
market analysis tool

Quicken ShareAnalyser V3

Overview

Whether you're a veteran of the share market or have just decided to handle your own superannuation, Quicken ShareAnalyser is an important tool for helping you manage your trading strategy. Learn to take control of your financial future and make your own investment decisions with confidence. Discover how investing in the share market can be fun and extremely rewarding, with the best value share-trading software package (as featured in Money Magazine November 2004).

For those people just starting out

It's easy to get set up and started with Quicken ShareAnalyser - designed specifically with ease of use in mind, it provides a step-by-step approach to assist you in managing the investment decisions you make. With wizards to help you manage tasks and customisation of features, all using 'Point and Click' simplicity, ShareAnalyser is suitable for people at any level of experience in investing and computer operation.

For experienced investors

Quicken ShareAnalyser can be the comprehensive share market analysis product, with professional tools typically only found in expensive high-end products. Containing the right blend of software and online services, ShareAnalyser is a compelling product that will not outgrow you in a hurry.

With its powerful scanning techniques and comprehensive charting feature, Quicken ShareAnalyser will revolutionise the way you manage your investments. Developed specifically for the Australian market, ShareAnalyser is the tool to help you.

Features

Scan the Market

Select a pre-set scan or create your own criteria (such as price or volume increases) to monitor the share market. Save time and search for the shares that you really want to invest in.

Chart the performance of selected shares

Gain a visual understanding of the performance of shares by using charts to plot the relationship between price and volume. You can compare the movement of certain shares against the All Ordinaries or ASX 200 indices, or against other shares in the same category.

Keep an eye on your shares

Set Alerts so you don't have to check each share every day. They can notify you when a share reaches a set price or a specified movement, helping you manage your 'take profit' and 'stop loss' points.

Structure your approach to investing

Create Watch Lists with Quicken ShareAnalyser to group your shares and provide easy comparisons. You can use the Portfolio Manager to keep track of what you own, what it is worth and what has changed since the shares were purchased. Record the rationale behind your trading decisions with ShareAnalyser's Trading Diary, to help you with future trades.

market analysis tool

Quicken ShareAnalyser V3

New & Improved Features

BONUS ASX All Shares Data Subscription - Retail Promotion

Purchase Quicken ShareAnalyser V3 in retail and you will receive a bonus 12 months subscription to ASX All Shares Data, worth \$299 p.a. Data subscriptions are also available for Fundamental Data, ASX Options & Warrants, Foreign Exchange and Futures, at additional cost.

20 min delayed data

Stay in touch with the market. With Quicken ShareAnalyser V3 you now have access to 20 minute delayed prices if you're online, not just end-of-day data.

Ease of use and smoother functionality

It's now easier than ever to set scanning criteria, so you can get set up quickly and start using the powerful features of Quicken ShareAnalyser V3. Other enhancements include the ability to sort saved graphs and total your trades automatically in the Trading Diary.

Additional technical and fundamental indicators

Quicken ShareAnalyser V3 now incorporates more price indicators, such as Weighted Moving Average, Rate of Return and Force Index. New fundamental indicators include Current Ratio, EBITDA, EPS Growth and Fixed Assets - allowing for more comprehensive share analysis.

Quicker online scans

Scans now use the power of a central server, so the data is quickly streamed to your PC.
